

**Effective October 1, 2019**

**CURBSIDE RESIDENTIAL GARBAGE COLLECTION SERVICE – Two days per week**

- Residential curbside service will change from the current manual collection system to **automated/semi-automated** residential curbside garbage collection service.
- **Special carts will be provided for collection.** The SWA expects the majority of communities would prefer the 96 gallon cart. However, if this size will not work for a community there is the option to choose a 48 or 65 for all keeping in mind all trash must be placed in the can for collection.
- For the first 90 days of the contract there will be no cart exchange. After that, exchanges will be made on a case-by-case basis.
- Carts will be delivered approximately 30 to 40 days prior to the new contract startup date of October 1, 2019. Each cart will contain a pamphlet explaining the service requirements and proper placement of the container for curbside collection.
- **All garbage is required to be placed within the container on both scheduled collection days.**

**CURBSIDE RESIDENTIAL BULK ITEM COLLECTION SERVICE – One Day per week**

Bulk items (furniture, appliances, etc.) will be collected on the second scheduled garbage collection day of the week. Bulk collection is limited to **three (3)** items per pick up.

## **CURBSIDE RESIDENTIAL RECYCLING COLLECTION SERVICE – One Day per week**

There are no changes to the recycling collection service except the truck will resemble a rear load garbage truck with a split body for the two bin system Palm Beach County uses. The yellow bin is for paper products and blue bin for commingle containers (aluminum, steel cans, plastic containers and glass bottles and jars). Please call 1-866-NEW-BINS for replacements.

## **CURBSIDE RESIDENTIAL YARD WASTE COLLECTION SERVICE – One Day per week**

Yard waste collection service is limited to residential yard waste maintenance, such as grass cutting, tree pruning, palm frond cutting, hedge trimming, etc. The service is not intended for debris related to land clearing or **tree removal**.

Yard waste service will be limited to **six (6) cubic yards per week** and no more than six (6) cubic yards may be placed at the curb. All small yard waste debris (leaves, clippings, hedge trimmings, etc.) must be containerized less than 50 lbs. We strongly encourage residents to use their current garbage containers for small yard waste debris for the new contract effective October 1, 2019. Plastic bags are acceptable, however the Authority would like to discourage their use.

Branches and palm fronds may be placed neatly outside the container. While there is no limit on the length of palm fronds, branches may not exceed **six (6) feet** in length, exceed **fifty (50) pounds** and the diameter must be less than **six (6) inches**.

- The resident will be responsible for having piles exceeding six (6) cubic yards or containing tree removal debris, large branches or stumps removed at their own cost. The Authority can assist the resident in identifying alternatives, including providing an estimate for the contractor to remove the material for an additional fee of \$8 per cubic yard.

# 95 Gallon Nestable Bar Roll Out Cart

Specifications	IML / B	CM / ML
Capacity (Gallons / Liters)	95 Gal	360 L
Overall Depth (D)	33.7	85.7
Overall Width (W)	28.7	72.9
Overall Height with Lid (H)	45.1	114.6
53' Trailer Quantity	486	

Dimension / Area	WIDTH (IN)	HEIGHT (IN)
Side Brand - Hot Stamp (B1)	11.5	7.5
Barcode & Serial Number (B2)	9.75	1.5
Lid Brand - Hot Stamp (B3)	11.0	2.25
4 Color In Mold Label or Hot Stamp (B4)	12.0	8.0

## Features & Benefits

- Proven to withstand the rigors of today's household refuse, recyclables and organics collection programs; Backed by 10 year non-prorated warranty
- Meets/Exceeds all ANSI type B & G container standards; Compatible with all ANSI certified Fully and Semi-Automated Lift Arm Lifters
- Constructed of high quality, resilient UV-Stabilized HDPE; Ability to include Post-Consumer Recycled (PCR) material to support your sustainability goals; Available in a wide range of colors
- Continuous one-piece handle provides strong gripping area designed to provide optimum control of a fully loaded cart while the wide wheelbase is designed for easy maneuvering
- Lid is of one-piece construction with a lid handle throughout the front of the lid
- Carts are shipped with lids already attached reducing assembly time
- One piece blow-molded wheels snap on (BMSO) with integrated spacers, taking seconds to assemble
- Permanently imprint cart bodies and/or lids with customized Hot Stamp Branding of Logos and Recycling Slogans; Multi-Colored In Mold Labels (IML's) are also available
- Barcode & Serial Number imprinted to facilitate A&E distribution and manual inventory control and work order tracking
- RFID Tag Enabled option provides innovative asset and participation tracking programs powered by Rvision
- Many additional services and technology offerings available and powered by Rvision to improve capital utilization, enhance customer experience and prevent capital and revenue losses
- Additional Cart Options: Internal and external locking lids, lid cut outs or vents, locking options, and lid stops

### Toter Heavy Duty Two-Wheel Trash Cart, 48 Gallon, Blackstone - ANA48-56599

Toter two-wheeled trash carts are perfect for the collection, transport and disposal of waste and recycling for industrial, commercial and institutional environments. The Advanced Rotational Molding™ process provides superior product durability for long life. Toter carts are extremely flexible and impact-resistant, and easily handle the day-to-day abuse of waste collection. Extreme Purpose Toter carts are designed and built for function, with craftsman-like attention to detail. With ideal handle height, rugged wheels and best-in-class ergonomics, maneuvering is a breeze - even when completely full. Extreme Toughness Constructed using Toter's Advanced Rotational Molding process - no seams means superior strength. Extreme Wear Toter carts are built to keep working long after others fail - more than 2x longer. They are backed by a 2 year warranty, the best in our industry. Plus, Toter's distinctive granite finishes are resistant to scratches and fading.

#### Features

- Rugged Rim® technology extends the life of the cart with reinforced material in critical wear areas
- Bottom wear strip shields against scratches with maximum strength protection
- Aerodynamic design for superior wind and set-down stability
- Constructed with up to 50% recycled material and are 100% recyclable
- Compatible with automated or semi-automated collection lifters
